Guest Issues:

Teresa Chase and Diana Rollins Presented a case for an Art program named Art in Action. They gave a full presentation with cost breakdowns and then a question and answer session. Ms Olcemendy indicated that she would contact Art in Action to present to the faculty at a later date to gauge interest.

Old Business:

The school supplies program information came back and the items are very expensive. The student council is going to make up a form and offer it to the parents over the summer. St. Roberts students could then have packages delivered to their classroom when they return in August. This will be more cost efficient, any profits go towards the student activities and it give the student council a worthwhile project.

New Business:

KidStock drama program information was disseminated by Yvonne. Staff is going to look into the cost and how to fit it in the already crowded schedule.

The proposed budget for 2006-2007 reflects a \$15 a month increase for each student, or roughly a 4% increase.
